EDUCATION

Bhagwan Parshuram Institute of Technology <i>Bachelor of Technology (B.Tech) in Computer Science & Engineering</i> CGPA: 9.21/10	New Delhi, India 2023 - 2027
PSM Public School <i>CBSE Class XII (Science)</i> Percentage: 93.8%	New Delhi, India 2022
PSM Public School <i>CBSE Class X</i> Percentage: 94%	New Delhi, India 2020

TECHNICAL SKILLS

Programming Languages: C++, Python, JavaScript
Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems, Computer Networks, Software Engineering, Time & Space Complexity Analysis
Frontend: React.js, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, Flask, REST APIs
Databases: SQL, PostgreSQL, MongoDB, Firebase Firestore
Cloud & Developer Tools: AWS, Microsoft Azure, Cloud Computing, Linux, Git, GitHub, Postman, Firebase, Render, Vercel, VS Code

PROJECTS

- ResumeIQ – AI-Powered ATS Resume Analyzer** | GitHub Live Demo
React.js, Flask, PostgreSQL, SQLAlchemy, Scikit-learn, PDFPlumber
- Engineered an AI-powered ATS Resume Analyzer that evaluates resumes against job descriptions and generates ATS scores, skill-match percentages, and personalized resume improvement recommendations.
 - Designed an NLP-based resume matching pipeline using PDF text extraction, TF-IDF vectorization, cosine similarity, keyword extraction, and role-specific skill matching with Scikit-learn.
 - Developed RESTful APIs, secure token-based authentication, and a relational PostgreSQL database schema using Flask and SQLAlchemy; deployed the frontend on Vercel and backend on Render.
- SyncWrite – Real-Time Collaborative Code Editor** | GitHub Live Demo
React.js, Node.js, Express.js, Socket.IO, CodeMirror, Render
- Engineered a real-time collaborative code editor enabling concurrent multi-user editing through WebSocket-based communication using Socket.IO.
 - Designed a room-based client-server architecture with multi-file workspace management, supporting concurrent file operations (create, rename, delete) and state synchronization across connected clients.
 - Implemented backend services for real-time messaging, workspace synchronization, and user session management using Node.js and Express.js; deployed the application on Render.
- CampusQuery – Student Query Management App** | GitHub APK
React Native, Expo, Firebase Authentication, Cloud Firestore, NativeWind
- Developed a cross-platform student community platform using React Native and Expo, enabling users to create, browse, and engage with academic discussions through an intuitive mobile interface.
 - Integrated Firebase Authentication with email verification and Cloud Firestore for secure user management and real-time synchronization of queries, answers, notifications, and user activity.
 - Implemented responsive mobile UI components, subject-based filtering, profile management, and real-time community interactions using NativeWind and Expo Router.

ACHIEVEMENTS

- Solved **300+** Data Structures & Algorithms problems across LeetCode and GeeksforGeeks.
- Selected as a **Semi-Finalist** in Flipkart GRiD 8.0.
- Recognized as the **Overall School Topper** in CBSE Class XII, securing **93.8%**.

CERTIFICATIONS & TRAINING

Certificate Course in Cloud Computing with AWS & Azure	NIELIT Delhi Centre
Industry Training – Artificial Intelligence & Machine Learning	WinnoVation Business Solutions Pvt. Ltd.
GenAI Powered Data Analytics Job Simulation	Tata & Forage
